Stately all brick custom home with approximately 3,800 square feet that boasts some of the best golf and water views in all of Ford's Colony. The main level is very open with wonderful trim work. The family room is generous in size and has a fireplace with gas logs, custom built-ins, and is open to the sunroom for lots of natural light. This flows nicely into a beautiful kitchen and breakfast area with granite counters, a breakfast bar, and access to a rear patio that is perfect for outdoor dining. The master bedroom is located on the main level and has his and her walk-in closets, a luxurious master bath with a glass encased ceramic tile shower, his and her vanities, and a large soaking tub. On the second floor there are two bedrooms each with its own full bath and a bonus room that could easily be a fourth bedroom. There is also an attached two car garage with plenty of storage above. The floor plan of this home takes full advantage of the beautiful views and it has many more special features.
